FOUNDER'S STATEMENT

Dear Friends & Colleagues,

Wishes for good health & Good News

In the wake of Pandemic , When most of our regular program was closed due to lock down and other covid -19 restrictions. All these steps taken in order to save life of people and support humanity. We all contributed to society by our maximum capacity and Sanmat team is proud of you for your services to the society.

This pandemic had taken our beloved team mate, cofounder from us and that have shaken our efforts and great work. Our cofounder Late. Mani Kanta Mishra got infected while working for covid Patients in one of our Covid Hospitals in Dumka. We couldn't save her even by all our best efforts and best possible treatment. I appreciate team's motivation for sailing us through such dark phase.

Pandemic will keep on coming and going but we need to maintain our dedication towards humanity and keep serving the most marginalized community.

AMIT KUMAR CHOUBEY

Chairman & CEO

ACTIVITIES

Dry Ration Distribution:

To fight COVID we organized community sensitization campaign through our 3000 skill trainees and 4000 volunteers and field workers in Bihar and Jharkhand. We (Entire team includes all our centers and liaison offices) have adopted 630 families till date to support with food grains and other essentials living items. Our area of interventions was Bihar, Jharkhand, UP , Maharashtra, Delhi and Tamilnadu.

DRY RATION AND MASK DISTRIBUTION DRIVE

Covid Hospital & Isolation Centre

We have converted two Sanmat welfare Hospitals of kathikund, Dumka and at Nala, Jamtara in Jharkhand state of India in complete covid care hospitals. We have also taken one more Primary Health Centre of Dumka , which was located at Madhuban and converted it to Covid Care facilities. Luckily we have overcome all infected patients and we had no causality. One of our Centre at Madhuban, Dumka had served CRPF personals and we had been appreciated for this.

Other than that we have run more than 10 isolation centers in different parts of country especially in Bihar, Jharkhand, WB ,UP, Maharashtra and Delhi.

It also includes Free ambulances in all theses locations to support covid testing, and bringing them to isolation centers.

Team behind Healthcare support

Free Ambulances, Oxygen Support, Home Nursing and cooked food for Covid-19 Patients

Through our volunteers and supporters we have served more than 1 million people through our free Ambulances, Covid test Centre visits, by providing Oxygen cylinder & Oxygen Concentrator , cooked food and Tele consultation with team of doctors online and also over call.

We have started community kitchen and call a friend named 24 hour helpline for covid patients and their attendants across nation. We have also provided home nursing facilities and home visits of doctors and covid worriers to home of patients.

Thanks to crowdfunding platforms Give India, Milaap, Ketto and Impact Guru for helping us to reach supporters and donors nationally & internationally. We have named our services as Sanmat ambulance, HelpNow, Ayusewa Ambulance etc. and also city & hospital specific names.

Ambulance Support

HelpNow: Emergency Support

One of our 24x7 Emergency Medical Service run by students and alumni of IIT Bombay, was started in May 2019, and is currently operational in Mumbai, Pune, Bangalore and Delhi.

Our endeavor is to provide a safe 24x7 ambulance service for transporting regular/ COVID patients, drugs, phlebotomists, healthcare workers and blood/ organ/ medical supplies.

We have served 32,100 Covid patients till December 2021.

Covid Emergency support Service Team

Supporting Livelihood & Mental Health

Due to lack of opportunities to support livelihood of people , We have started supporting community men & women by providing raw materials for masks and other covid-19 related materials. We had engaged more than 2000 People in this and supported livelihood of around 7000 people through different other initiatives and engagements.

We have supported Circus artists, wage laborer, migrant workers, street vendors and house maids.

Counselling service by our counsellors has also been initiated to provide basic counselling and psychological support. We have reached more than 12000 people through our online and call based support programs.

Online Classes for Students

We also started ZOOM classes for our trainees and taking this time to upgrade people towards making them comfortable in using such virtual platforms. We are covering soft skill module.

We have enrolled more than 600 of our students and zoom based learning had been started. We had run this for ITI students of manoharpur and of all our Skill training Centers.

We have organized more than 1300 hours for this and it was very supportive to our students.

Locations : Manoharpur, Chaibasa, Darbhanga, Hazaribagh, Simdega, Kushinagar, Gorakhpur, Pune and Lucknow.

We are 1st who started this in Jharkhand for most marginalized tribal community.

Skill Training & ITI
